## 2021 Healthcare Affordability Policy Checklist

### KEY

-  = implemented by state
-  = the state has implemented policies, but could improve
-  = not implemented by state

polling data repeatedly shows that healthcare affordability is the number one issue that state residents, on both sides of the political aisle, want their policymakers to work on. This checklist identifies areas where Missouri is doing well and areas where it can improve.

### 1. CURB EXCESS HEALTHCARE PRICES:

- Implement free, public-facing healthcare price transparency that reflects negotiated rates and features treatment- and provider-specific prices. 
- Create an all-payer or multi-payer claims database to analyze healthcare price inflation, price variation and utilization.<sup>1</sup> 
- Create a permanently convened health spending oversight entity. 
- Create all-payer healthcare spending and quality benchmarks for the state. 

### 2. REDUCE LOW-VALUE CARE:

- Require validated patient-safety reporting for hospitals. 
- Universally implement antibiotic stewardship programs using CDC's 7 Core Elements. 
- Analyze claims and EHR data to understand how much is spent on low- and no-value services. 

### 3. EXTEND COVERAGE TO ALL RESIDENTS:

- Expand Medicaid to cover adults up to 138% of the federal poverty level.<sup>2</sup> 
- Provide high-quality, affordable coverage options for people whose incomes are too high to qualify for Medicaid, e.g., Basic Health Plan, reinsurance or augmented premium subsidies. 
- Provide options for recent immigrants that don't qualify for the coverage above.<sup>3</sup> 
- Conduct strong rate review of fully insured, private market options. 

### 4. MAKE OUT-OF-POCKET COSTS AFFORDABLE:

- Protect patients from inadvertent surprise out-of-network medical bills. 
- Limit the availability of skimpy and confusing short-term, limited-duration health plans. 
- Waive or reduce cost-sharing for high-value services. 
- Require insurers in a state-based exchange to offer evidence-based standard plan designs.

## NOTES

1. Missouri is a part of the Midwest Health Initiative, which includes claims data for Missouri, Western Illinois and Eastern Kansas for commercial payers; however, this is not a state-run initiative. See: <https://www.apcdouncil.org/state/missouri>
2. Missouri has adopted but not implemented Medicaid expansion as of April 2021.
3. Missouri's Show-Me Healthy Babies program provides health coverage for pregnant women who are undocumented or do not meet qualifying immigration criteria and have incomes less than or equal to 300% of the Federal Poverty Level. Coverage ends on the date of discharge after delivery and one postpartum visit is covered. Missouri also covers emergency services for individuals who meet all eligibility criteria for Medicaid except they are undocumented or do not meet qualifying immigration criteria.

### ABOUT ALTARUM'S HEALTHCARE VALUE HUB

With support from the Robert Wood Johnson Foundation, the Healthcare Value Hub provides free, timely information about the policies and practices that address high healthcare costs and poor quality, bringing better value to consumers. The Hub is part of Altarum, a nonprofit organization with the mission of creating a better, more sustainable future for all Americans by applying research-based and field-tested solutions that transform our systems of health and healthcare.

**Contact the Hub:** 2000 M Street, NW, Suite 400, Washington, DC 20036
