

Healthcare Value Hub

A Networking and Resource Center Advocating for an Equitable, Affordable, Patient-Centered Healthcare System

About the Hub

With support from the Robert Wood Johnson Foundation, the Healthcare Value Hub provides free, timely information about the policies and practices needed to achieve health systems that are equitable, affordable, and focused on the goals and needs of the people the system is meant to serve.

The Hub offers both online and hands-on support, with a staff dedicated to monitoring, translating and disseminating evidence, as well as connecting advocates, researchers and policymakers to build communities and create action for a patient-centered, high-value healthcare system.

COST & QUALITY PROBLEMS

Costs are too high and quality is uneven. Why aren't consumers getting more value for their healthcare dollar?

IMPROVING VALUE

There are many ideas for improving health care value. But which ones work?

ADVOCATE RESOURCES

Advocates make a difference. The Hub's resources can help.
